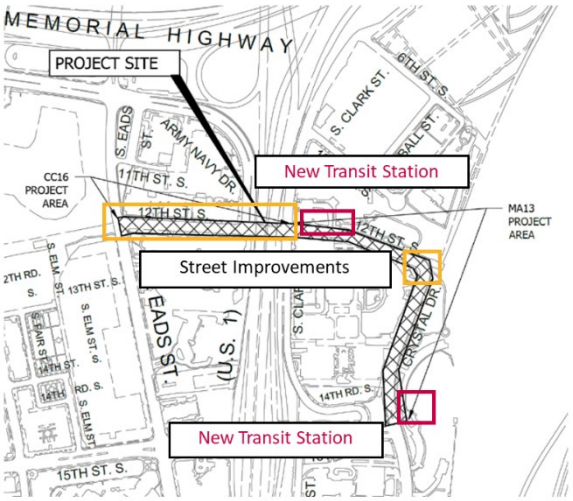
March 23, 2022

Dear community member,

Beginning the week of April 4th, Arlington County contractors will initiate the construction work for the first segment of the Transitway Extension to Pentagon City. The work includes the installation of two new transit stations at Crystal Drive & 15th Street S, and 12th Street S. & Long Bridge Drive, along with street improvements along 12th Street S. between S. Eads St. and S. Clark St., and the intersection of 12th Street S. at Crystal Drive.

The contractor will use portions of the northbound curbside lane along Crystal Drive between 12th Street S. and 15th Street S., and Long Bridge Drive as a construction staging area. The existing street parking on this side of the street will eventually become a transit-only lane as part of the project.

Project Area:



Construction will begin the week of April 4th, 2022 and is anticipated to be complete by April 2023. Work hours will be Monday through Friday from 9:00am to 4:00pm. Street marking will be installed after construction and installation of the Transit stations are completed.

Northbound traffic on Crystal Drive is not expected to be impacted by this project. Maintenance Of Traffic (MOT) plans for both projects can be found on the project pages for the Transitway Extension to Pentagon City and the 12th Street S. Complete Street projects.

Construction and traffic management coordination is also underway related to the ongoing work at the Verizon site development located at the northeast corner of 12th Street S. and S. Eads St.

Please reach out to the project team with questions at any time during this effort.
