

Fentanyl ALERT

Fentanyl is contaminating most drugs and is in counterfeit pills

STAY SAFE

Check your drugs before using

- ⇒ Fentanyl test strips are a quick way to check any substance to determine if there is fentanyl in it.
 - **Request them free through the mail at aari@arlingtonva.us or through your provider.
- ⇒ Simply take a small amount of the drug, mix it with water, and insert the test strip. You will have results in a few minutes.
- ⇒ Always have NARCAN available in case you or someone you know takes accidentally ingests a contaminated substance.
 - **Request free NARCAN through the mail at narcan@arlingtonva.us or through your provider.
- ⇒ In the event of an overdose, call for help. The Safe Reporting of Overdose Law is in place to offer protection from arrest.

Substance use support is available, speak to a peer in long term recovery 571-302-0327
