

26th St N & N Harrison St

BEFORE TREATMENT

Safety Issue: Identified through the annual hot spot analysis in 2017.

Project Description: This project made permanent the tactical safety improvements first implemented in 2017 to improve pedestrian safety, accessibility and visibility in this school walk zone. The project delivered permanent curb extensions and sidewalk improvements, added ADA-compliant curb ramps, and aligned the crosswalks to reduce crossing distances.

Completed: Spring 2022
