

Fireworks Safety

FIREWORKS are often used to mark special events and holidays. The only safe way to view fireworks is to attend a professional show. It is important to know that **fireworks are not safe in the hands of consumers**. Fireworks cause thousands of injuries each year.

A few ideas to get into the patriotic spirit, without fireworks:

1. Use glow sticks, they glow in the dark and are a safe alternative to a sparkler. Fun for all ages.
2. Loud and proud. Noise makers are sure to make a statement. They can be found at local party supply stores or make your own.
3. Outdoor movie night. Set up a screen and projector. Don't forget the bugspray!
4. Red, white and blue silly string...fun for all ages.
5. Make a patriotic craft with the family.
6. Throw a birthday party for the USA, and don't forget the cake.

FACTS

- More than 31,000 reported fires are started by fireworks annually.
- Burns account for 38% of the 7,400 injuries treated in emergency rooms in the month around July 4.
- Half of the fireworks injuries at emergency rooms were extremities: hand, finger, or leg. One-third were to the eye or other parts of the head.
- Children younger than 15 years old accounted for 28% of the estimated fireworks injuries.
- Sparklers account for 29% of fireworks injuries for children under the age of 5 treated in emergency rooms in the month around July 4.
