

This Development Tracking Report, produced by the CPHD Research and Strategic Initiatives Group, provides a summary of county-wide development activity for the First Quarter of 2023 (January 1, 2023 - March 31, 2023) and includes development highlights, summary statistics, and information on active development applications. Detailed data tables based on project status (approved, under construction, completed, and demolished) for this quarter are included as an attachment. As a companion to this report, the Development Tracking Dashboard provides an online interactive experience with the development data for this quarter, trends since 2013, and development within and outside the Planning Corridors. Project photos from staff site visits can be viewed through the Research Team Flickr account. Links to access the dashboard and the Flickr account are at the bottom of this page.

Active Development Applications as of March 31, 2023

Active Development Applications are currently undergoing special exception County review prior to consideration by the County Board. The list below shows the volume and type of projects currently going through the application process. The following table includes Site Plan applications that have been accepted and filed or are currently under public review (but not on hold). Development statistics reflect the initial Administrative Regulation 4.1 submission (for Site Plan projects) or 4.1.2 submission (for Form Based Code projects), and they are subject to change during the public review process leading up to approval by the County Board. More information can be found at <https://www.arlingtonva.us/Government/Projects/Private-Development>

Methodology

Quarterly development tracking reports are generated from County staff authored Board Reports, County Board minutes, and County data on Certificate of Occupancy (CO) permits, building permits, and demolition permits.

The projects contained in this report are only those that add or subtract new development potential (i.e., residential units, hotel rooms, or gross floor area) to current residential, hotel, office, retail and other space inventories in the County. This report does not include data on alterations or additions to single family attached or detached homes or accessory dwelling units, but does include information on demolition and new construction of such homes.

Approval Date: The approval date is the date the project was approved by the County Board (by-right projects are not approved by the County Board). The Virginia State Legislature has extended the blanket expiration of approved site plans and special exception use permits beyond the terms of most final site plans approved by the County Board, with the most recent extension to July 2023.

Construction Start Date: The construction start date is the date the first building permit was approved for by-right projects. For multi-family site plan and other County Board approved projects, the construction start date is when construction activity commences above grade as inspected by CPHD staff.

Completed Date: In most cases, a project is considered complete when a CO has been issued. A project is determined to be complete when a Master CO or partial COs have been issued for at least 50 percent of the GFA or units in the project. Some projects can be determined complete upon inspection by CPHD staff.
