Detailed data tables based on project status (approved, under construction, completed, and demolished) for this quarter are included as an attachment.

Highlights

- The Milton (Pentagon Centre PDSP), Westmont Apartments, and the Virginia Hospital Center expansion were completed, adding in total over 500 residential units, over 38,000 SF of retail, and 239,086 SF of medical space in the County.
- Construction came above grade for the South Block of 11th and Vermont Residences which will add 98 residential units to the County when completed.
- The County Board approved two residential, mixed-use projects (The Arva and Bingham Center) and the residential site plan for the Ballston Holiday Inn.

Methodology

Quarterly development tracking reports are generated from County staff authored Board Reports, County Board minutes, and County data on Certificate of Occupancy (CO) permits, building permits, and demolition permits.

The projects contained in this report are only those that add or subtract new development potential (i.e., residential units, hotel rooms, or gross floor area) to current residential, hotel, office, retail and other space inventories in the County. This report does not include data on alterations or additions to single family attached or detached homes or accessory dwelling units, but does include information on demolition and new construction of such homes.

Approval Date: The approval date is the date the project was approved by the County Board (by-right projects are not approved by the County Board). The Virginia State Legislature has extended the blanket expiration of approved site plans and special exception use permits beyond the terms of most final site plans approved by the County Board, with the most recent extension to July 2025.

Construction Start Date: The construction start date is the date the first building permit was approved for by-right projects. For multi-family site plan and other County Board approved projects, the construction start date is when construction activity commences above grade as inspected by CPHD staff.

Completed Date: In most cases, a project is considered complete when a CO has been issued. A project is determined to be complete when a Master CO or partial COs have been issued for at least 50 percent of the GFA or units in the project. Some projects can be determined complete upon inspection by CPHD staff.

Demolition Date: The demolition date listed for demolished projects is the date the demolition permit was issued (not the date of actual demolition).
