

Bus Bay Expansion

Concept Design Community Meeting - 3/1/2022 – 7pm

Question and Answer Summary

Question from:

Question

Can WMATA finish the stairway from the Kiss and Ride lot to N. 19th Rd. right away? It has been out of commission for a year or more and its absence only makes the walk to Metro longer for many users.

John Wilson (Unverified)

Are there plans for future redevelopment in the project area? And with more people going to permanent telework will the services at the station focus outside of the rush hours and all day? I telework full time but use the station often as I don't own a car and I shop and get around by using the bus and metro. Will there be more bus service all day and night as a result of this project to have better noon time and evening and weekend services?

Michael (Unverified)

John Wilson (Unverified)

Are you improving bicycle access? Assume that the bus bays would not preclude other types of development in the future?

Sandi Chesrown (Unverified)

Do you have pictures of the shelters?

Michael (Unverified)

How is this being integrated with the proposed N Sycamore Street Complete Streets project?

Collier Cook (Unverified)
