

Quick-Build Project Workflow

Project Identification & Scoping

- Prioritize quick-build project candidates
- Obtain survey and confirm projects for construction
- Identify builder and timeline

Project Posting

- Add project description and draft plan to the website and map
- Provide updates on timeline and plans
- Share messaging about the program occurs in County newsletters

Project Construction

- Send construction notices within 2 weeks of construction; Share via community groups and social media
- Build projects
- Post before/after cut sheets

High priority quick-build projects may arise that require additional fast-tracking. Staff will update the website and send notices as able, but communication timelines may differ from above.
